

Student Summer Research Symposium

Presented by

Center for Plant Genomics Training and Education, UC Berkeley
Partnership for Plant Genomics Education, UC Davis

Hosted by

University of California, Botanical Garden

The goal of this symposium is to provide high school and community college students participating in summer research with a forum to discuss their research experience and results. Students will present research posters and PowerPoint presentations to their peers, scientist mentors, parents and the public.

Date: August 8, 2005

Schedule:

10:00 students arrive and set-up
10:30 student presentations
11:30 Poster Session #1
11:50 Poster Session #2
12:15 Lunch
1:30 Tour of the Botanical Garden

Location: UC Botanical Garden, UC Berkeley

*Maps available on the UC Botanical Garden website,
<http://botanicalgarden.berkeley.edu/>*

Participation in this symposium is free and lunch will be provided.

Abstract deadline is July 22.

Registration forms will be accepted until the due date or until all slots are full, whichever comes first.
